

- International Workshop -
Supersymmetry, Duality and Unification

2005

*In honor of Prof. Norisuke Sakai on the occasion of his sixtieth birthday
November, 19, 2005 (Sat), Tokyo Institute of Technology*

Program of Talk

9:40 – 10:30

Supersymmetry, Extra Dimension and Unification
C.S. Lim (Kobe University)

10:50 – 11:40

QCD and Strings
Tadakatsu Sakai (Ibaraki University)

12:00 – 12:50

Probing supersymmetry and unification
John Ellis (CERN)

14:10 – 15:00

Progress in superstring perturbation theory
Eric D'Hoker (UCLA)

15:20 – 16:10

Distribution of flux vacua near singular points in Calabi-Yau moduli space
Tohru Eguchi (The University of Tokyo)

16:30 – 17:20

Solitons in supersymmetric gauge theories: (walls, junctions, and other solitons and their composite)
Norisuke Sakai (Tokyo Institute of Technology)

Organizing committee

Saburo Higuchi (Ryukoku University), Akio Hosoya (Tokyo Institute of Technology, Chair)
Katsushi Ito (Tokyo Institute of Technology, Scientific Secretary)
Muneto Nitta (Tokyo Institute of Technology), Keisuke Ohashi (Tokyo Institute of Technology)
Tetsuya Shiromizu (Tokyo Institute of Technology), Yoshiaki Tanii (Saitama University), Izumi Tsutsui (KEK)

18

**Lecture room:
W241 is on 4th floor of the West Bldg. 2**

7

**The Centennial Hall
3F : Ferrite Memorial Hall**

As a reception of the Conference and, at the same time,
to celebrate the sixtieth birthday of Professor Norisuke Sakai,
we will hold a party after this conference (from 18:00),
at the Centennial Hall.
